

PRAVEEN KUMAR

MIS Executive | Data Analyst | Power BI Developer

+91 97605 18551 | praveenkumar9760518551@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

MIS Executive and Data Analyst with 2+ years of experience managing end-to-end data operations across the NGO and corporate sectors. Currently overseeing data quality and reporting for 20+ development projects across multiple Indian states, having delivered 50+ MIS reports and built Power BI dashboards that automate KPI tracking and cut manual reporting effort. Skilled in Advanced Excel, Power BI, SQL, and Kobo Toolbox, with strong cross-departmental coordination across Programme, M&E, Finance, and HR teams in Livelihoods, Gender Empowerment, WASH, Health, Education, and Disaster Management programmes.

TECHNICAL SKILLS

Advanced Excel: Pivot Tables, Power Pivot, VLOOKUP, XLOOKUP, INDEX-MATCH, COUNTIFS, SUMIFS, IF/IFS, Flash Fill, SUMPRODUCT, Power Query, Data Validation, Conditional Formatting, MIS Reports, Data Cleaning, Charts & Graphs

Power BI: DAX (CALCULATE, SUMX, FILTER, TOTALYTD), Power Query, Data Modeling, Relationships, KPI Cards, Slicers, Interactive Dashboards, Automated Reporting

SQL: SELECT/WHERE, GROUP BY, HAVING, INNER JOIN, LEFT JOIN, Subqueries, Aggregate Functions (SUM, AVG, COUNT, MAX), Database Design, Foreign Keys

M&E / Field Data Tools: Kobo Toolbox (Form Design & Data Collection), Indicator Tracking, Monitoring & Evaluation Support, Basecamp, Google Workspace, Microsoft Office Suite

Core Competencies: MIS Reporting, Master Sheet Management, Data Refinement & Verification, Field Data Operations, Cross-departmental Coordination, ETL Processes, Policy Management, Insurance Data Processing

WORK EXPERIENCE

MIS Executive (Management Information Assistant)

Mar 2025 – Present

Pragya – Development Organisation | Gurugram, NCR — Non-profit working across India, Nepal, Bangladesh & Kenya

Data Collection & Management

- Collect and consolidate daily field-level data from Kobo Toolbox, Basecamp, and email across all India-based projects.
- Manage and monitor data for 20+ projects across multiple Indian states, covering Livelihoods & Food Security, Gender Empowerment, Disaster Management, Natural Resource Management, WASH, Education, and Health & Nutrition.
- Refine and clean raw field data, improving accuracy and consistency before processing for reporting.
- Maintain and update Master Sheets for all ongoing India projects across Head Office and Regional Offices.

Reporting & Analysis

- Analyze Programme data using Pivot Tables to identify trends, track progress, and generate actionable insights for management.
- Delivered 50+ weekly and monthly MIS reports to Programme and management teams, supporting timely, data-driven decisions.
- Generate customized reports for multiple departments as per their specific requirements and deadlines.

Inter-Departmental Coordination

- Serve as the midway point of contact between field teams, regional offices, and Head Office for all MIS-related communication.
- Coordinate with Programme, Finance/Accounts, M&E, HR, and Operations departments across India to ensure smooth data flow and reporting.

Tools & Technology

- Apply Advanced Excel functions and Power Query to automate data processing, reducing manual report preparation time.
- Design Kobo Toolbox digital forms for structured field data collection, reducing manual data entry errors and simplifying reporting for field staff.

Monitoring and Coordination Support Assistant (MCS)

Jan 2025 – Mar 2025

Pragya – Development Organisation | Gurugram, NCR

- Coordinated with field staff deployed across project locations for scheduling and activity planning.
- Prepared daily and weekly work plans for field staff, specifying responsibilities, targets, and locations.
- Collected and verified field staff attendance records and submitted them to the Accounts team for salary processing.
- Maintained communication with field teams to track movement and ensure timely execution of field activities.

MIS Executive

Apr 2024 – Dec 2024

Vidh Health Insurance TPA | Corporate Sector

- Managed health insurance policy data for 10+ corporate clients simultaneously, ensuring accuracy across all accounts.
- Collected and processed data from PDFs, Excel sheets, CSV files, and company portals, cleaning, and formatting large datasets to company standards before system upload.
- Created and updated insurance policies based on policy terms, conditions, and client requirements; generated employee health insurance cards and maintained accurate policy records.
- Managed employee additions, deletions, and modifications within insurance policies, and coordinated claim processing to help resolve policy- and claim-related issues within SLA.
- Ensured data accuracy and timely uploads, working extensively with Excel and internal portals to coordinate between clients and internal teams.

PROJECTS

Sales Analytics Dashboard | Excel + Power BI

- Built an interactive Power BI dashboard tracking revenue, profit %, and YoY growth, giving management real-time visibility into business performance for faster decision-making.
- Used Power Query for ETL transformation and DAX (CALCULATE, SUMX) for KPI calculations and dynamic data modeling.

AE Phase II – Crops Data Dashboard | Power BI

- Built a multi-source Power BI dashboard consolidating crop-related field data from several Excel sheets across project locations under the AE Phase II Programme at Pragya.
- Designed the data model and relationships to support consistent cross-sheet reporting, with DAX-driven KPIs, percentages, and performance tracking.
- Added interactive slicers, charts, and filters for management review, and automated recurring reporting to cut manual effort and improve accuracy.

EDUCATION

- Bachelor of Arts (B.A.) | Dr. Bhim Rao Ambedkar University, Agra | 2022
- Intermediate (10+2) | National Inter College, Bhongaon, Mainpuri | 2018.
- High School (10th) | National Inter College, Bhongaon, Mainpuri | 2016.
